> GOLD COAST GOLF CARTS **QUALITY. PERFORMANCE AND VALUE**

GOLD COAST Golf Carts, known for quality, performance and value, is a major supplier of top-quality golf carts in the Australian market.

Gold Coast Golf Carts, who have just moved into a new much larger facility in Ormeau in Queensland, are very proud to be the Australian agents for both ACE luxury golf carts and HDK golf carts, the world's #1 selling brand.

The ACE Golf Carts provide the best features of any cart on the market, with a powerful 5.0kW AC motor and a big, long lasting 105-amp hour lithium battery, the most comfortable seats and best suspension, making for a very smooth ride.

Featuring 4-wheel hydraulic disc brakes, progressive power steering, 9" touch screen with stereo speakers, car play, Bluetooth, reversing camera, auto park brake (EMB), mag wheels and lots more, the ACE carts are available in three models - two seat, four seat facing forward and four seat 2+2.

Also distributed by Golf Coast Golf Carts and confirmed as the number one golf cart manufacturer in the world, HDK produces over 16,000 carts per month from their modern production facility

They offer an extensive range of models all powered by long lasting 105 map hour Lithium batteries, equipped with the latest in technology and features.

The models include the Miami Ltd, a cart which has 6.3kW AC Motor, 105-amp Lithium battery, auto park brake (EMB), 14" Alloy wheels, 9" touch screen with stereo speakers, reversing camera, FM Radio, Bluetooth for phone and music, plus more.

The D5 is the hottest selling cart in the US, with four seats, all facing forward, however the D5 is no longer than a normal cart. It ticks all the boxes and is feature packed, while boasting incredible performance with a powerful 6.3 kW AC motor and a large Lithium battery.

It even has a Sound Bar and four-floor level speakers all with adjustable LED lights.

There are many other great carts available, including the lifted Forester and the Turfman work cart.

Gold Coast Golf Carts is very proud to be awarded the HDK Dealer of Excellence Award for 2023.

Gold Coast Golf Carts carries 50-100 HDK and ACE carts for immediate delivery and provide service, technical support and backup by stocking any spare parts required for the product

Don't buy a new cart until you test drive a golf cart from Gold Coast Golf Carts.

> THE FINN GOLF SCOOTER

GOLF has long been a sport of tradition, but innovation is reshaping the way players experience the game. Enter the Finn Golf Scooter, a game-changer for Australian golfers.

The Finn Golf Scooter is a sleek, single-rider electric vehicle designed to enhance pace of play and inject a new level of excitement into the sport. Now available in Australia for the first time, the Finn Cycle is set to revolutionise how golfers navigate the course.

Speed Meets Convenience

One of the biggest frustrations for golfers is the slow pace of play, often exacerbated by traditional carts that require players to wait for their partners before advancing. The Finn Cycle eliminates this issue by allowing golfers to ride directly to their ball, cutting playing time in half. With a top speed of 24km/ hr and a range of 36 holes per charge, this scooter ensures efficiency without compromising the enjoyment of the game.

Designed for Performance

Beyond speed, the Finn Cycle is engineered for comfort and stability. Featuring motorcycle-style front suspension, rear shock absorbers, and low PSI tires, it minimizes turf impact while providing a smooth ride. The 48-volt brushless motor ensures high torque with low power consumption, making it an environmentally friendly alternative to traditional carts.

A New Era for Australian Golf

The arrival of the Finn Cycle in Australia signals a shift toward a more dynamic and engaging golfing experience. As courses begin to adopt this innovative mode of transport, players can expect faster rounds, greater independence, and a fresh perspective on the game. Whether a seasoned golfer or a newcomer looking for a fun way to explore the fairways, the Finn Golf Scooter is a welcome addition to Australia's golfing landscape.

For Australian golfers interested in purchasing or learning more, Platypus Golf Club Platypus Golf Club (https://www.ntps. platypusgolfclub.com/) is the authorised distributor of Finn Golf Scooters, providing access to this cutting-edge innovation.

> STINGER GOLF UNVEILS THE GAME-CHANGING SG-2 V2

"An Industry First in Golf Buggies"

MARK your calendars! Stinger Golf is set to redefine the golfing experience with the highly anticipated release of the SG-2V2 this July 2025 which will be an Industry First in Golf Buggies.

The SG-2V2 sets a new standard in golf buggy innovation, featuring an impressive list of inclusions that are sure to make it the envy of competitors worldwide. This model offers expansive storage solutions, including a large Top Console and a Rear Carry Bag equipped with an Insulated Cooler Section. Additionally, its industry-leading quick-fold mechanism ensures it tops every golfer's wish list. Experience unparalleled convenience and style with

Stinger Golf's CEO, Tony Micallef, praised the R&D team for their exceptional work on the SG-2 V2, which not only enhanced the original model's strength but also maintained its nimbleness at a very reasonable weight. Encouraged by these advancements, Micallef announced another industry

milestone—a generous 3-Year Frame Warranty for the SG-2 V2, setting a new standard for quality and trust in the market.

Stinger Golf has revolutionized the golfing world. They now offer perhaps the widest selection of push buggies anywhere, each designed to meet the needs and budget of any golfer. What truly sets their lineup apart is the inclusion of additional accessories at no extra charge. If you're shopping for a new buggy or simply want one of the finest to ever traverse the fairways of Australia and New Zealand, explore the new Stinger SG-2V2. You won't be let down

For those who do not already know, Stinger Golf is a 100% proudly owned Australian Family Business, leading the way through innovation and exceptional customer service

For more information visit www.stingergolf.com.au or call 03 5924 6956 and speak directly to one of their friendly sales team.

> PRO-LI LITHIUM BATTERIES — UNIVERSAL FIT. UNRIVALLED CONFIDENCE

AUSTRALIA'S golf cart industry is entering a new era of performance and reliability with PRO-Li by ECAR Golf, distributed by Carts'n'Parts Australia. Designed to suit every make and model—from Club

Car Precedents and EZGO RXVs to Yamaha G29s and beyond—PRO-Li Lithium Batteries bring a seamless lithium upgrade to carts nationwide.

PRO-Li batteries aren't just about extended run-times: they also deliver significant weight savings over traditional lead-acid batteries and by reducing overall cart mass, they ease the load on motors and suspension, improving cart handling.

What truly sets PRO-Li apart though is its industry-leading full warranty. Backed by a five-year, non-pro-rata guarantee, ECAR Golf stands firmly behind its fully certified and compliant lithium technology. Should any issue arise, the battery is covered for a guaranteed fix or replacement. No confusing fine print and no unexpected depreciation giving users complete peace of mind and confidence in

Spoilt for choice, choose between the PRO-Li Core 105Ah Lithium Battery Package—ideal for 2–3 rounds* of uninterrupted play—or the PRO-Li Plus⁺ 150Ah Lithium Battery Package, offering 4–5 rounds* on a single charge.

Each package includes an on or offboard charger, the carts' relevant calibrated dash/voltage gauge, and installation hardware specific to cart make and model. The PRO-Li Core 105Ah Lithium Battery Package retails for \$3,499 inc. GST and the PRO-Li Plus+ 150Ah Lithium Battery Package retails for \$3,999 inc. GST.

cart upgraded to the power of lithium is now even easier. Carts'n'Parts proudly ships direct to your door or club (wherever your cart calls home), and offer Australian support for any questions or concerns and they will be here in many years' time.

For golfers who demand reliable power and effortless performance, PRO-Li Lithium Batteries are the ultimate upgrade to any golf cart.

*Lithium Battery Range based on terrain, driver behaviour, load on cart and programmed speeds.

> REDMAX POWER HUB 2000W & 3000W

THE REDMAX Power Hubs have received an upgrade and are now available in 2000W and 3000W sizes.

These units function like portable power generators, while operating silently. They serve as an AC/DC power supply with a rechargeable lithium battery and a Battery Management System, safely providing power for mains-powered, USB, or 12V devices.

Recharge them easily via a vehicle accessory socket, solar panels, or a mains-powered charger. Take power off-road or to the worksite with the Power Hub's handy and unique trolley. Find the REDMAX Power Hubs and trolleys at R&J Batteries branches and distributors across Australia or read more at www.rjbatt.com.au/redmax.

> PARMAKER EXPLORER GHIA

THE Parmaker Explorer Ghia allows you the independence to follow your ball without zig-zagging all over the fairway. It's more convenient than a 2-seater cart and allows you to be laser-focused on your game. With 2 x 500 watt motors you have the power for any type of course, and being electric, conversation isn't drowned out by engine noise.

Like all Parmaker products the Explorer Ghia folds down with ease, plus with the optional Car Carrier you can transport your buggy on the back of your car. There's no need for parking or a cart storage shed with the Explorer Ghia, and it comes with reverse gear, a large seat and foot-operated brake as standard.

With prices starting at \$3,520 the Explorer Ghia is vastly cheaper than a 2-seater golf cart. Buy or learn
