NEW GEAR

MGI ZIP NAVIGATOR AT (ALL-TERRAIN) MOTORISED BUGGY

CONQUER the toughest golf courses with the Zip Navigator AT - All Terrain. Designed with independent swivelling front wheels for added strength and stability, The Zip Navigator AT effortlessly carries all your gear across any terrain. Powered by a 24V 380Wh Click and Go lithium battery, the Zip Navigator AT incorporates a full directional remote control with twin 230Wh motors. However, the most revolutionary feature of the MGI Zip Navigator AT lies within. MGI's Patented Gyroscopic Straight Tracker technology ensures the buggy remains on track irrespective of the terrain or slope that you are on so you can focus on your next shot, not pushing your clubs. Now you have no boundaries, no excuses.

Available Frame Colours: Black & Titanium Grey.
RRP: AU $2,299 (24V 380Wh Lithium Battery)

APEX UW – TOUR-INSPIRED VERSATILITY

APEX UW is a high-performance Utility Wood that Tour players love. This unique design combines the best features of higher lofted fairway woods, the best features of hybrids, and a more neutral ball flight. Using direct feedback from world-class pros like Phil Mickelson, we've created a multi-purpose club that better players can rely on from the tee, fairway, or rough.

Ball speed is a given from our proven A.I. Designed Flash Face SS21, Jailbreak A.I. Velocity Blades plus our Forged C300 Face Cup, and distance is just one of the performance benefits of this versatile Utility Wood. We're delivering Apex performance from MIM'D Tungsten Weighting (18g per club on average), which we use to precisely position the Centre of Gravity (CG). The neutral CG configuration promotes higher launch and steeper landing angles for better stopping power, along with optimised spin rates, all while reducing unwanted draw bias.

The clean, compact shape creates workability for better shot-making with enhanced control. All these characteristics help to provide 17 per cent more consistent downrange dispersion for impressive accuracy. Tour pros and better players have been asking for a new "go-to" club that's easy to hit, easy to control, consistently long, and a reliable option for a variety of shots.

RRP: $499.99 AUD **www.callawaygolf.com.au**

SRIXON Q-STAR TOUR DIVIDE: START SEEING DOUBLE

SRIXON®, a global leader in golf ball technology and innovation, recently introduced the all-new Q-STAR TOUR DIVIDE.

"The new Q-STAR TOUR DIVIDE looks great, but it's so much more than that," said Brian Schielke, general manager at Srixon.

"Easier putting alignment and increased visual feedback on your chip and pitch shots really adds to the greenside performance. It's a ball every golfer must try."

The Q-STAR TOUR DIVIDE delivers a new way to see the game, with its new thermoplastic urethane cover that has been infused with bright pigments rather than being painted on. The 50/50 Matte Urethane Cover delivers a high contrast, matte cover that provides the same tourlevel spin and stopping power you've come to expect from the original Q-STAR TOUR, but now comes in three dual colour offerings.

With DIVIDE's unique two-tone cover construction, putting alignment comes easy with a 360° line, while every shot will produce a strobe effect to help show off the speed and direction of spin.

DIVIDE might not look like a classic golf ball, but it still delivers true tour performance. Featuring the same FastLayer Core and 338 Speed Dimple Pattern found on the classic Q-STAR TOUR, DIVIDE provides the distance and control expected from a tour-caliber golf ball.

Start 'seeing double' today with Q-STAR TOUR DIVIDE, the ultimate golf ball in looks and performance.

Key technologies inside Q-STAR TOUR DIVIDE:

- **50/50 Matte Urethane Cover:** Each DIVIDE cover is yellow on one half and red, blue, or orange on the other. This high contrast matte cover makes spin visible and putting alignment easy. Plus, it's cast from soft urethane for tour-level spin and stopping power.
- **360° Alignment Line:** The longer your alignment line, the easier it can be to line up your putts. And with DIVIDE's one-of-a-kind seam line running around the entire golf ball, you get 360 degrees of alignment so you can putt with perfect aim.
- **FastLayer Core:** The new FastLayer Core offers distance and soft feel without compromise due to a gradual transition from soft inner core to firm outer edge.
- **338 Speed Dimple Pattern:** Providing a penetrating ball flight in any conditions, the optimal dimple design increases lift and reduces drag to maximise distance.

Color offerings: Yellow/Red, Yellow/Blue, Yellow/Orange.
RRP: $44.95

The best 19th Hole just got better!

Harrigans Pub manager Chris Codd giving Golf To The Max Golf Pro Kieran McMahon a "Free Drop" in the brand new bar area

Harrigan's
HUNTER VALLEY

"Harrigans had great atmosphere all-round ! Excellent steaks whilst we watched the footy on the big screen and some of the boys had a punt in the sports bar.

We also loved the fantastic new outdoor area with an awesome cover band to keep us entertained. The best part was when any of us wanted to retire our cosy motel room was a short stumble away!"

- Ben - June 2019

LUXURY PADDED SEATS AT AN AFFORDABLE PRICE

ARE your seats peeling or splitting, faded from the sun or do you just want more comfortable seats in your golf cart?

As a solution, Carts'n'Parts Australia have exclusively produced an easy to fit, zip-on padded seat cover that equals, if not surpasses, the quality of custom-upholstered seats.

The seat covers will fit all major brands such as ECAR, EZGO and Club Car and are in stock and ready to ship. Using a unique diamond and hexagon stitch pattern, these seat covers are guaranteed to draw attention and scream for you to take a comfortable seat.

For the added luxury of comfort, medium density foam has been added to the cover to give a soft and padded feeling whilst still provided shape to the seat. Combined with marine grade, low-heat, vinyl used by many major boat brands, the covers are made to be used and made to last.

Where custom-upholstered seats start at $999 a set, these covers are half that cost and are a reasonable and sensible accessory for you cart.

Is there anything on your cart that you will use more than the seats?

RRP: $499 (for a set of 1 x base and back support)

SURESHOT PINLOC 6000iPSM LASER RANGEFINDER

THE Sureshot PINLOC 6000iPSM laser rangefinder features Slope, Pulse & Scan technology along with enhanced battery life and Sureshot's fastest optics ever, all housed in an ergonomic shock and water-resistant case.

A powerful magnet inside the casing now allows Sureshot lasers to be attached to a cart or buggy frame for quick access, while the improved protective hard case ensures it stays safe in transit. The Sureshot PINLOC 6000iPSM Slope feature compensates and adjusts the measured distance based on the angle of incline or decline in the terrain you stand on, giving you the most accurate yardage possible to your target (can be toggled on/off for competition use).

RRP: AU $429.95 **www.mgigolf.com**

TEE2 – YOUR TEE SHOT ALIGNMENT TRAINING AID

WHETHER you're a hooker or a slicer, a bomb hitter or a soft stroker – every golfer's aim is to knock down their numbers.

Developed by an internationally renowned engineer, the Tee2 Alignment Training Aid has been designed to assist golfers of all skill levels to improve accuracy and help them approach their tee shots with increased confidence.

Just 5 degrees off is enough to put you in the trees, hit more fairways with better Tee Alignment.

The Tee2 Alignment Training Aid is a simple, subtle and powerful way to improve your alignment. But don't pull it out during competition golf – it's not approved for competition.

Try it out on the range, during a casual round, or just as the occasional assistant to get you back on the fairway.

Set yourself up for a successful round by making sure there is a packet of Tee2 Alignment Training Aids in your golf bag.

Order two packs online and get the third free with code **INSIDEGOLF342** (applied at checkout).

RRP: 5 pack – $18
10 pack – $25
(Available in red, pink and yellow)
